# THE GREAT TABLE.

OF 2:30 TROTTERS AND 2:25 PACERS UNDER THEIR SIRES.

This table includes sires of standard performers whose pedigrees have been ascertained and is intended to show the blood-elements and best official records of sires and performers, and the year of the performance.

After each sire is given the total number of 2:30 trotters and 2:25 pacers to his credit at the close of 1921, together with the total number of performers produced by his sons and daughters. This table includes those sires that have new credits in 1921.

An asterisk (\*) preceding the name of an animal indicates that the record was made in a contest against time.

The Roman numerals inclosed in parentheses, as "(IV.\*)" indicate the volume of the AMERICAN TROTTING REGISTEE from which the pedigree is taken.

Reference to preceding volumes of the Year Book is indicated by bold face figures in parentheses as (18, 19, 20).

## Table of Dams.

This table includes mares formerly designated as Great Brood Mares, and in addition, named dams having but one standard performer to their credit—the name of such dam and her sire, if known, being given, as well as the name and record of the performer. This table includes only mares having new credits in 1921.

Great Brood Mares are indicated by giving full list of their produce or referring to former volumes of the Year Book where in the Table of Dams their pedigrees and list of produce will be found—such references being expressed thus: (15-18-20).
